

# 1L Lithium Battery Fire Extinguisher

Internal Code: FFE029

Protect, control and stop lithium battery fires fast. Tried and tested to protect against the blaze, our lithium battery fire extinguishers are designed to safely extinguish the flames and prevent re-ignition. Our 1-liter fire extinguisher provides effective lithium battery fire protection to prevent the propagation of heat when applied as a mist. The AVD coating also acts as a fire break.

Fill volume Agent: 1000ml  
Approx. Weight of Unit: 2.1kg

Cylinder Ø: 85mm

Unit Height: 350mm

Handle: Metal - Red

Base: Integral Base

Bracket: Wall Bracket

Fire Rating: 3A

Propellant: Nitrogen (He Tracer)

Operating Pressure: 15BAR

Operating Temperature: +5°C +60°C

Approx. Discharge Time: 25s

Discharge Range: 1.5m - 2m

2.1kg - 102x104x360mm (Packed)

Units per Box: 10

Box Dimensions: 394x535x226mm
