

# 9L Lithium Battery Fire Extinguisher

Internal Code: FFE040

Achieve results that are unobtainable with conventional extinguishing agents and prevent the propagation of fire with a Lith-Ex 9 litre fire extinguisher. AVD is a pioneering fire extinguishing agent that has been tried and tested as effective lithium battery fire protection. Lith-Ex fire suppression technology is suitable for use in factories, offices and other locations where there are significant numbers of lithium battery devices.

**Handle: Metal - Red**

**Hose: Yes with Magnet**

**Base: Green PP**

**Bracket: Wall Hanger**

**Fire Rating: 13A**

**EN3 Certified: Yes**

**MED Approved: Yes**

**Propellant: Nitrogen (He Tracer)**

**Operating Pressure: 15BAR**

**Operating Temperature: +5°C +60°C**

**Approx. Discharge Time: 180s**

**Discharge Range: 1.5m - 2m**

**15kg - 199x226x670mm**

**Packaged Unit (LxWxH): 199x226x670mm**

**Units per Box: 1**
